

TOUCAN

# Provide more value for clients and investors

## EURAZEO

**OBJECTIVES**

- Deliver an intuitive dashboarding experience for internal investors as well as acquired accounts
- Become data-driven and build a simple, and efficient way to showcase company evolution
- Easily scale and capitalize on data fast with exhaustive visualizations

**KEY RESULTS**

- 5000 hours of R&D time saved per year
- 100+ apps used by companies serving thousands of clients
- 5 minutes to create a dedicated analysis experience per client

**CHALLENGE** Deliver reliable, high-velocity data output that is easily understood by all stakeholders while managing large volumes of diverse data with limited resources.

**SOLUTION** Launch a solution that is user-friendly, responsive and has a clear capacity for templatization to accelerate data-driven investment decisions and boost control and communication of key performance indicators.

**IMPACT** From the first app, company trust increased, through data leadership, with clients and partners. Eurazeo effortlessly scaled its efforts, presenting an exhaustive and consolidated data analysis on investment targets in an ultra-fast, efficient, and appealing application for each client.

“ I wanted a user-friendly, responsive solution with robust templatization capabilities. Toucan was the natural choice. ”

EURAZEO - Mickael Clavier, Director - Head of Data Analytics
